Commissioner for Patents

The amendment filed on August 26, 2005 has not been considered because it is not in compliance with either 37 CFR 41.41(a) or 37 CFR 41.33. The paper filed August 26, 2005 is deemed to be a new amendment to the claims, 37 CFR 41.41(a) states that "(2) A reply brief shall not include any new or non-admitted amendment or an new or non-admitted affidavit or other evidence." MPEP 1208 states "A paper that contains an amendment is not a reply brief within the meaning of 37 CFR 41.41. Such a paper will not be intiteled to entry simply because it is characterized as a reply brief." With respect to 37 CFR 41.33 exceptions are provided, however, the examiners answer did not include a new ground of rejection and such the amendment has not been considered to be a request to reopen prosectuion pursuant to 41.39(b)(1) nor is it qualified under the exceptions 41.50(a)(2)(i) and 41.50(b)(1). Applicant set forth no basis in Rule or Statute for the proposed amendment which was filed subsequent to the mailing of the Examiner's Answer. Futher, it is noted that this identical issue was addressed in an interview with the Attorney of record before the Examiner's Answer was mailed and Applicants were unwilling to resolve the issues of record after the brief was filed but before the Examiners answer was written and mailed and as such the amendment is not timely.
